MRI Medical Inc. Changing Name to Xeridiam Medical Devices, Inc.

Comprehensive Services and Support to Continue as Company Expands Focus

TUCSON, AZ—MRI Medical Inc. is changing its name to Xeridiam Medical Devices, Inc. as part of its corporate development plan.

"Although we're changing our name, we will continue to provide our customers with the same superior design, development, and manufacturing services that we've provided for nearly 30 years," stated Joseph Lee, Xeridiam Medical Devices, Inc.'s President. "Our mission remains the same - to improve healthcare by helping our customers efficiently supply world class medical devices to patients around the world."

Xeridiam Medical Devices, Inc. custom engineers performance-critical, minimally invasive medical devices used in urology, cardiology, gastroenterology, minimally invasive surgery, and gynecology for both major companies and individual entrepreneurs.

"We apply our keen insight and experience to solving our customers' toughest challenges in design and development through validation, testing and documentation for regulatory approval," stated Joseph Lee, President. "Our acquisition in July by Fenner plc gives us access to a deep pool of technical and financial resources to use in launching our customers' products quickly and efficiently. These are exciting developments for Xeridiam Medical Devices, Inc."

Fenner plc is a world leader in the field of reinforced polymer engineering based in the United Kingdom. Products include conveyor belting for the mining and power generation markets; precision motion control products for the office automation and mechanical equipment markets; sealing products for the mining, hydraulics and energy industries; technical fabrics and polymer products for the medical device industry.
